DELIMITATION COMMISSION NOTIFICATION

New Delhi, the 27th November, 1964

S.O. 4102.—In pursuance of sub-section (2) of section 9 of the Delimitation Commission Act, 1962, the Delimitation Commission hereby publishes its proposals in respect of the distribution of the seats allotted to the State of Mysore in the House of the People and the seats assigned to the Legislative Assembly of that State to territorial constituencies and the delimitation thereof and specifies the 28th December, 1964, as the date on or after which the proposals will be further considered by it.

Any objections or suggestions in regard to these proposals should reach the Secretary of the Delimitation Commission (Talkatora Road, New Delhi-1), before the said date. It will facilitate prompt consideration if they are in English.

PROPOSALS

1. The territorial constituencies into which the State of Mysore shall be divided for the purpose of elections to (a) the Legislative Assembly of the State and (b) the House of the People and the extent of each constituency and the constituencies which are reserved for the Scheduled Castes or the Scheduled Tribes, as the case may be, shall be as shown in Table A and Table B, respectively.

2. Where the name of a constituency as shown in the Tables is distinguished by the brackets and letters "(SC)", the seat in that

constituency is reserved for the Scheduled Castes; and where such name is distinguished by the brackets and letters "(ST)", the seat in that constituency is reserved for the Scheduled Tribes.

TABLE—A

DISSENTING PROPOSALS

OF

ASSOCIATE MEMBERS

I

Before writing my note of dissent, I must record my deep sense of appreciation for the sincere and hard efforts put in by the members of the Delimitation Commission in the preparation of the proposals for delimiting Parliamentary and Assembly constituencies, in the State of Mysore.

Sub-section (1) (c) of Section 9 of the Delimitation Commission Act, 1962 deals with the reservation of seats for the Scheduled Castes. It reads as follows :—

“Constituencies in which seats are reserved for the Scheduled Castes shall be distributed in different parts of the State and located, as far as practicable, in those areas where the proportion of their population to the total is comparatively large”

Hence, while locating a seat for the Scheduled Caste Community, it is necessary to see as to where the particular population is proportionately large. If the seat is located where their population is large, it would enable the community to play greater part in selecting their representative. It would not be advisable

to allot a seat for the Scheduled Caste Community where there is no such population or where their population, is negligible, in the pretext of distributing seats in different parts. The intention of the Parliament in reserving the seats for the S. C. Community is foiled if it is done like that.

As regards the location of an additional S. C. Seat in Parliamentary Constituency, this fact is not given due consideration (* * * * *) The S. C. Seat was located in Chitaldrug constituency where the percentage of Scheduled Castes to the total population is 18.24. Most of the Associate members were of the view that the S. C. Seat should be shifted to Kanakapura Parliamentary Constituency (12), where the percentage of the S. C. population to the total is 19.05. Hoskote and Madhugiri constituencies have still more having 21.41 and 21.89 percent of S. C. population, respectively. But the present proposals are for locating the S. C. seat at Chikkodi constituency where the S. C. population is very less i.e., 13.17 percent. Hence I feel that the proposal is neither just and proper and nor in the interest of the S. C. Community. Besides it would not even be in accordance with the provisions of the Delimitation Commission Act, 1952. In case the Commission is of opinion that the S. C. seats must be distributed in different areas without much regard to the S. C. population then one of the existing reserved Parliamentary constituencies now in the Old-Mysore area e.g., Kolar or Chamarajnagar will have to be shifted to Madras Karnatak area (South Kanara Distt.) But the word 'area' when it is not defined specifically in the said act may be taken to mean a 'District'. If the constituencies are distributed in different districts it would suffice for the purposes of the sub-section (1) (c) of Section 9 of the Delimitation Commission Act, 1962.

Hence it is seen that neither the percentage of the S. C. population is taken into account nor the proper distribution of the S. C. seats in different areas is made. Therefore I am strongly of the opinion that the proposed S. C. Seat in Chikkodi Parliamentary constituency may be shifted to Kanakapura or Madhugiri or Hoskote.

Secondly, regarding the location of one additional S. C. seat in the Assembly constituency, I am of the opinion that the principles enunciated above are not followed. (* * * * *) The S. C. seat was located at (130) Sakleshpur constituency in Hassan District, where the S. C. population to the total population is 21.51 percent. At the time of consideration, it was generally agreed that the S. C. Seat should be shifted to (151) Channagiri in Shimoga District as that district was getting two more seats. At Channagiri the S. C. population is 19.94 percent. But surprisingly I now see that the additional S. C. seat is located at Chadachan (214) in Bijapur district, where the S. C. population is so low as 12.83 percent. I cannot understand the reasons for locating it in Bijapur District especially when there is already one reserved seat. There are some districts which have none and if the principle of distribution is to be followed then it should go to the district where there is no S. C. seat. If the percentage is to be taken into account the Chadachan reserved seat has to be shifted to Sakleshpur or Channagiri. By any test the proposed S. C. seat at Chadachan has to be shifted.

Then I come to the Assembly Constituencies in Dharwar District. There I see that the identity of rural population of Hubli Taluk is lost as the population is divided between Kalghatgi and Hubli Rural. The Hubli rural constituency has much urban population and only 23,278 of the rural population is included in that constituency. The result would be the voice of the rural population is lost. As we are all aware, the problems of the urban and rural areas are different and some times the interests conflict. It would be always advisable to see that adequate representation is given to the rural population and to see that their interests are safeguarded. That can only be done by seeing that the bulk of the population in

the constituency consists of the rural people. Hence my delimitation is as under :—

166. Kalghatgi	Kalghatgi Taluk & Alnavar Circle from Dharwar Taluk.	67,930		2527
		24,796		955
		92,726		3482
167. Dharwar Rural	Dharwar Taluka (excluding Alnavar circle and Division No. 1 of Hubli-Dharwar Corporation	79,109		
		18,700	960	533
		97,809	960	533
168. Hubli-Dharwar Corporation (North)	Division Nos. 2, 3, 4, 5, 6 & 7 of the Hubli-Dharwar Municipal Corpn.	18,206 18,438 19,137 18,917 18,105 18,593	696 1377 385 532 1550 1506	120 32 24 38 119 94
		111,396	6046	427
169. Hubli-Dharwar Corporation (South)	Division Nos. 8, 9, 10, 12, 14 & 15 of the Hubli Dharwar Municipal Corporation	110,755	7528	
(as proposed by the Commission in Constituency No. 168).				
170. Hubli Rural	Hubli Taluk (excluding the area included in the Corporation limits and Divisions, Nos. 11, & 13 of the Hubli-Dharwar Municipal Corporation	61,537 18,512 18,404	182 878	.. 26
		98,453	1060	26

Kalghatgi constituency had always been in the past included a part of Dharwar Taluk. In fact it has more contacts with Dharwar Taluka than with Hubli Taluk, Dharwar being the Head Quarters of the District. Hence, I have formed Kalghatgi constituency with part of Dharwar taluk. Now if any proposals are accepted the rural population of both Dharwar and Hubli Taluks would be predominantly represented in the constituencies so that they may be able to send their own representatives. Moreover both the cities have now come to be under one Corporation it is better to describe the constituencies as Hubli-Dharwar Corporation, North and Hubli-Dharwar Corporation, South.

Next I have something to suggest about the Bijapur District also. That District has the same number of Assembly seats as before. Hence I find no reason to disturb the existing demarcation of constituencies. In constituency No. 214 Chadachan, Nagathan circle is proposed to be added. The said circle of Nagathan is in Bijapur Revenue Sub-Division and Chadachan and Bollolli circles are in Indi Sub-Division. It is the accepted principle to see that revenue units are not split up and it more applies to Sub-Divisions. When we do not intend to break up talukas it would not be proper to join two separate parts belonging to separate Divisions. Hence I propose that Nagathan circle of Bijapur Taluk should be retained in the Bijapur Division alone. Then again Devara Hippargi circle is in Sindgi taluk and in Indi Sub-Division. It is now proposed to be added Huvina Hippargi circle in Bagewadi Taluk which is in Bijapur Sub-Division. This is also not proper. As far as possible areas should be taken from the same sub-division. Otherwise it would create some administrative inconvenience besides creating confusion and hardship to the people. Hence I feel that some adjustment is necessary there.

With these few observations I agree to the proposals

F. H. MOHSIN.

II

While locating the seat for scheduled caste in Dharwar District of Mysore State, the seat for Scheduled Caste is allotted to Nargund Constituency instead of serial No. 168 Hubli-Dharwar Corporation. The Scheduled Caste seat in Dharwar District ought to be allotted to serial No. 168 which is an urban constituency having 6.79 % population of Scheduled Castes approximately equal to the percentage of scheduled caste in Nargund Constituency. Nextly in Nargund Constituency from among the scheduled castes no suitable and competent local candidate can be found to contest for the seat. The candidate for S. C. ought to be brought from a different constituency where educated and qualified candidates amongst scheduled castes are found in great number. In all probability candidate from Hubli-Dharwar Corporation area who belongs to S. C. will be brought to contest for Nargund Constituency if it is converted into S. C. Constituency. Hence it is quite proper and best suited if serial No. 168 Hubli-Dharwar Corporation in which local candidate amongst Scheduled Castes can easily come forward to contest. Thirdly Hubli-Dharwar Corporation area has been allotted an additional seat which is given to Dharwar District. Hence it was agreed among the leaders of the District that as Hubli-Dharwar Corporation has got the special advantage of getting an assembly seat more, the scheduled caste seat for Dharwar ought to be located in serial No. 168. Constituency where the people belonging to Scheduled Caste are more conscious about their rights to get representation in their home constituency for their candidate. Fourthly the present Nargund Constituency is a backward and undeveloped area and the area is always visited by scarcity and famines. For this area if a candidate is brought from a different Constituency to contest for S. C. seat, he is not capable to serve the people to his best and to their satisfaction as a local candidate does for them. Hence it is submitted that Nargund Constituency ought to be maintained as General Constituency just to develop the area economically by all efforts with the services of an educated, experienced, vigorous, fully conscious and able legislator. For the reasons stated above, we are firmly of the opinion that instead of converting the Nargund Constituency into S. C. the serial No. 168 Hubli-Dharwar Corporation ought to be allotted the seat for scheduled caste in Dharwar District. I hope that the amendment as suggested in my dissenting note may kindly be accepted by the Delimitation Commission.

C. R. BASAPPA.

November 20, 1964.

III

I have the following dissenting proposals to make :

- (i) In the Parliamentary Constituencies No. 2 and 3—Gulbarga and Raichur respectively the constituencies of Gurmitkal (in Gulbarga) and Shahpur (in Raichur) should interchange with each other. Shahpur and Gurmitkal are more homogeneous to Gulbarga and Raichur respectively, than as proposed by the Commission. Besides, it would be convenient for the voters to go to the now proposed places, as the existing transport arrangements between the proposed points are direct and more convenient.
- (ii) In the Gulbarga district, the assembly constituency No. 8—Kamalapur should be general and No. 9—Aland, be declared as Scheduled Caste as at present.
- (iii) The enclosed note may please be seen, in connection with delimitation of constituencies in North Kanara District. The constituencies according to the proposals now circulated are as under:—

Name of the constituency	Extent	Population	Area in Sq. Mls.
1. Bhatkal . . .	Bhatkal Taluka and Honavar Taluka (excluding Honavar Circle).	97,588	289
2. Sirsi . . .	Umbalmane Circle in Siddapur Taluka and Sirsi Taluka.	106,410	714
3. Honavar . . .	Siddapur taluka (excluding Umbalmane circle), Honavar circle in Honavar taluk and Kujalli Circle and Kumta circle [excluding Kumta town and the village specified in item (23)] of the Appendix in Kumta Taluka.	110,560	410
4. Karwar . . .	Karwar and Supa Talukas	126,026	1016
5. Kumta . . .	Ankola taluka and Gokarn and Mirjan circles and Kumta town and the villages in Kumta circle specified in item (23) of the Appendix in Kumta Taluk.	128,587	448
6. Haliyal . . .	Haliyal, Yallapur and Mundgod Taluka.	120,378	1080

The following important factors have not been taken into consideration in the above delimitation :

(a) The communication facilities are of foremost importance. But absolutely no regard has been given to the question of communications in the proposed delimitation. For example the proposed Honavar constituency comprises of part of

Siddapur taluka, part of Honavar taluka and part of Kumta taluka. Siddapur taluka is above the Western Ghats and Honavar and Kumta Taluks are entirely below Ghats. There is no direct communication between Siddapur and Honavar and between Siddapur and Kumta. Though the distance between Siddapur and Honavar as the crow flies is about 45 miles, the actual distance by road is 75 miles *via* Sirsi and Kumta and 85 miles *via* Jog Falls and Bhatkal. The distance to the interior villages will be still more. Therefore, though on the map, Siddapur, Honavar and Kumta taluks appear to be contiguous, Siddapur has little or no direct link either with Kumta or with Honavar. The western parts of Siddapur taluka and the eastern parts of Kumta and Honavar taluks are covered by thick, impenetrable forests and comprise of hill tracts across which there is very little direct communication.

(b) It has not been found practicable to have one administrative unit comprising of Siddapur and Honavar and Kumta taluks. For this reason Siddapur taluka is now in Sirsi Sub-Division and Honavar and Kumta taluks are in Kumta Sub-Division. A constituency comprising of parts of Siddapur, Honavar and Kumta talukas will have the same disadvantages as an administrative unit comprising these talukas

(c) In the proposed delimitation the distribution of population between the constituencies is quite disproportionate. For example Bhatkal constituency has a population of 97,588 whereas Kumta constituency has a population of 1,28,587.

(d) The distribution of areas also is equally disproportionate. For example, Bhatkal constituency has an area of 289 sq. miles, whereas Haliyal constituency has an area of 1080 sq. miles.

(e) Another factor that should have been taken into consideration in delimitation is there should be as little dislocation as is absolutely necessary in the existing constituencies. But the proposed delimitation involves major dislocation and without reasonable grounds.

(f) The regional affinity is also a factor that should have been taken into consideration in realigning the constituencies. Siddapur, Sirsi, Yallapur and Mundgod Taluks have a greater regional affinity than Siddapur on the one hand and Honavar and Kumta taluks on the other.

Therefore the proposed delimitation of constituencies will entail inconveniences from all points of view, *viz.*, communications disparity in population and area, difficulty regarding administration and regional affinities. The delimitation of constituencies should be as follows :

**REVISED PROPOSALS FOR DELIMITATION OF LEGISLATIVE ASSEMBLY CONSTITUENCIES IN NORTH KANARA DISTRICT
(MYSORE STATE)**

Population	No. of seats		(a) Average population per seat	
	Existing	Proposed		
6,89,549	5	6	(b) 110 % of (a) above	1,14,925
			(c) 90 % of (a) above	1,26,417

169. Hubli Rural .	Hubli Taluk (excluding the area in Divisions Nos. 5, 6 and 9 to 15 of Hubli-Dharwar Corporation)	99,522	5,595 (5.62)
170. Kalghatgi .	Kalghatgi Taluka and Abravar Circle in Dharwar Taluk.	92,726	3,482 (3.76)

The remaining constituencies will be as proposed by the Commission with the only change that Constituency No. 182 Nargund will be a General Seat.

BELGAUM DISTRICT

The Chikodi Parliamentary Constituency should be General Constituency instead of Scheduled Caste Constituency.

C. M. DESAI

K. H. RANGANATH

V

NORTH KANARA DISTRICT

1. The population of North Kanara District according to 1951 census was 5,17,780. The number of seats allotted to the District was 5. The population of the District according to 1961 census is 6,89,549. Therefore the District is entitled to have 6 seats.

2. The existing Constituencies are as follows:—

Name of constituency	Extent of constituency
1. Honavar	(i) Bhatkal Taluka. (ii) Part of Honavar Taluka including Honavar Town.
2. Kumta	(i) Kumta Taluka. (ii) Part of Honavar Taluka which is not included in Honavar constituency.
3. Sirsi	Whole of Sirsi and Siddapur Talukas.
4. Karwar	Whole of Karwar, Supa and part of Haliyal Taluka.
5. Ankola	Ankola Taluka, Yellapur Taluka, Mundgod Taluka and part of Haliyal Taluka not included in Karwar constituency.

The constituencies according to the proposal now circulated are as under :—

Name of the constituency.	Extent	Population	Area in Sq. Mls.
1. Bhatkal . . .	Bhatkal Taluka and Honavar Taluka (excluding Honavar Circle).	97,588	289
2. Sirsi . . .	Umbalmane Circle in Siddapur Taluka & Sirsi Taluka.	106,410	714
3. Honavar . . .	Siddapur taluka (excluding Umbalmane Circle), Honavar Circle in Honavar Taluka & Kujalli Circle and Kumta Circle [excluding Kumta town & the village specified in item (23) of the Appendix] in Kumta taluka.	110,560	410
4. Karwar . . .	Karwar and Supa Talukas .	126,026	1016
5. Kumta . . .	Ankola taluka and Gokarn and Mirjan Circle and Kumta town and the villages in Kumta Circle specified in item (23) of the Appendix in Kumta TK.	128,587	448
6. Haliyal . . .	Haliyal, Yallapur and Mindgod Talukas.	120,378	1080

The following important factors have not been taken into consideration in the above delimitation:

(a) The communication facilities are of foremost importance. But absolutely no regard has been given to the question of communications in the proposed delimitation. For example the proposed Honavar constituency comprises of part of Siddapur taluka, part of Honavar taluka and part of Kumta taluka. Siddapur taluka is above the Western Ghats and Honavar and Kumta Taluks are entirely below Ghats. There is no direct communication between Siddapur and Honavar and between Siddapur and Kumta. Though the distance between Siddapur and Honavar as the crow flies is above 45 miles, the actual distance by road is 75 miles *via* Sirsi and Kumta and 85 miles *via* Jog Falls and Bhatkal. The distance to the interior villages will be still more. Therefore, though on the map, Siddapur Honavar and Kumta taluks appear to be contiguous, Siddapur has little or no direct link either with Kumta or with Honavar. The western parts of Siddapur taluka and the eastern parts of Kumta and Honavar taluks are covered by thick, impenetrable forests and comprise of hill tracts across which there is very little direct communication.

(b) It has not been found practicable to have one administrative unit comprising of Siddapur and Honavar and Kumta taluks. For this reason Siddapur taluka is now in Sirsi Sub-Division and Honavar and Kumta taluks are in Kumta Sub-Division. A constituency comprising of parts of Siddapur, Honavar and Kumta talukas will have the same disadvantages as an administrative unit comprising these talukas.

(c) In the proposed delimitation the distribution of population between the constituencies is quite disproportionate. For example, Bhatkal constituency has a population of 97,588 whereas Kumta constituency has a population of 1,28,587.

(d) The distribution of areas also is equally disproportionate. For example Bhatkal constituency has an area of 289 sq. miles, whereas Haliyal constituency has an area of 1080 sq. miles.

(e) Another factor that should have been taken into consideration in delimitation is there should be as little dislocation as is absolutely necessary in the existing constituencies. But the proposed delimitation involves major dislocation and without reasonable grounds.

(f) The regional affinity is also a factor that should have been taken into consideration in realigning the constituencies. Siddapur, Sirsi, Yallapur and Mungund Talukas have a greater regional affinity than Siddapur on the one hand and Honavar and Kumta Taluks on the other.

Therefore the proposed delimitation of constituencies will entail inconveniences from all points of view, *viz.*, communications, disparity in population and area, difficulty regarding administration and regional affinities. The delimitation of Constituencies should be as follows:—

REVISED PROPOSALS FOR DELIMITATION OF LEGISLATIVE ASSEMBLY CONSTITUENCIES IN NORTH KANARA DISTRICT (MYSORE STATE)

Population	No. of seats.		(a) Av. Pop. per seat : 114,925
	Exis.	Prop.	(b) 110% of (a) above : 126,417 (c) 90% of (a) above : 103,433

4. Karwar	Whole of Karwar, Supa and part of Haliyal Taluka.
5. Ankola	Ankola Taluka, Yellapur taluka, Mundgod Taluka and part of Haliyal Taluka not included in Karwar constituency.

The constituencies according to the proposals now circulated are as under :—

Name of the constituency	Extent	Population	Area in Sq. Miles
1. Bhatkal	Bhatkal taluka and Honavar taluka (excluding Honavar circle).	97,588	289
2. Sirsi	Umbalmane circle in Siddapur taluka and Sirsi taluka.	106,410	714
3. Honavar	Siddapur taluka (excluding Umbalmane circle) Honavar circle in Honavar Taluk and Kujalli circle and Kumta circle (excluding Kumta town and the village specified in item (23) of the Appendix in Kumta taluka.	110,569	410
4. Karwar	Karwar and Supa talukas	126,026	1,016
5. Kumta	Ankola taluka and Gokarn and Mirjan circles and Kumta town and the villages in Kumta circle specified in item (23) of the Appendix in Kumta Tk.	128,587	448
6. Haliyal	Haliyal, Yallapur and Mundgod Taluka.	120,378	1,080

The following important factors have not been taken into consideration in the above delimitation :—

(a) The communication facilities are of foremost importance. But absolutely no regard has been given to the question of communications in the proposed delimitation. For example the proposed Honavar constituency comprises of part of Siddapur taluka, part of Honavar taluka and part of Kumta taluka. Siddapur taluka is above the Western Ghats and Honavar and Kumta taluks are entirely below Ghats. There is no direct communication between Siddapur and Honavar

and between Siddapur and Kumta. Though the distance between Siddapur and Honavar as the crow flies is about 45 miles, the actual distance by road is 75 miles via Sirsi and Kumta and 85 miles via Jog Falls and Bhatkal. The distance to the interior villages will be still more. Therefore, though on the map, Siddapur, Honavar and Kumta taluks appear to be contiguous, Siddapur has little or no direct link either with Kumta or with Honavar. The Western parts of Siddapur taluka and the eastern parts of Kumta and Honavar taluks are covered by thick, impenetrable forest and comprise of hill tracts across which there is very little direct communication.

(b) It has not been found practicable to have one administrative unit comprising of Siddapur and Honavar and Kumta taluks. For this reason Siddapur taluk is now in Sirsi Sub-division and Honavar and Kumta taluks are in Kumta Sub-division. A constituency comprising of parts of Siddapur, Honavar and Kumta talukas will have the same disadvantages as an administrative unit comprising these talukas.

(c) In the proposed delimitation the distribution of population between the constituencies is quite disproportionate. For example Bhatkal constituency has a population of 97,588 whereas Kumta constituency has a population of 128,587.

(d) The distribution of areas also is equally disproportionate. For example, Bhatkal constituency has an area of 289 sq. miles, whereas Haliyal constituency has an area of 1 080 sq. miles.

(e) Another factor that should have been taken into consideration in delimitation is there should be as little dislocation as is absolutely necessary in the existing constituencies. But the proposed delimitation involves major dislocation and without reasonable grounds.

(f) The regional affinity is also a factor that should have been taken into consideration in realigning the constituencies. Siddapur, Sirsi, Yallapur and Mundgod Taluks have a greater regional affinity than Siddapur on the one hand and Honavar and Kumta Taluks on the other.

Therefore the proposed delimitation of constituencies will entail inconveniences from all points of view, *viz.*, communications disparity in population and areas, difficulty regarding administration and regional affinities. The delimitation of constituencies should be as follows :
